RUSSIA AND JAPAN SETTLE

(Associated Press Cable.)
ST. PETERSBURG, Russia, Aug. 28. One more step in the complete settlement of all differences between Russia and Japan growing out of the Russo-Japanese war was taken today in this city, when certain war claims were satisfactorily settled.

The Japanese government undertakes to pay a number of private claims for damages, amounting to \$150,000, while it will reimburse the Red Cross Society for its ship, taken during the war, by a payment of \$80,000.

To Russia the Japanese government agrees to return the hospital ship, which was also taken possession of during the war. There is much satisfaction felt here at the outcome of the official negotiations.

The work of vaccination will be done through the agency of the American Red Cross.

SAILOR THINKS

HE IS A LEPER

SAN FRANCISCO, Cal., Aug. 28.—Believing himself to be suffering from a leprosy disease, James Quinlan, a sailor, applied at the central emergency hospital last night for admission that he might die there. The story he tells is that he shipped from San Francisco in 1906 on the windjammer Annie, owned by the Matson Navigation Company, bound for the Solomon Islands, he claims, and he was for seven days adrift on a raft with three or four companions before they were able to get ashore. He remained on the islands for some years, contracting disease during that time. Then he was rescued and brought to this coast, since which time he has been living in a Howard street lodging house. The physicians at the hospital provided him with accommodations, but declare that he has a good chance for recovery. Quinlan's home is in Pennsylvania.

HAWAII COUNTY FINDS SHORTAGE

(Special Bulletin Correspondence.)

HILO, Aug. 25.—The good of a county engineer was shown last Tuesday when the lot released to the county for the Waialeale fire department was measured off by Engineer Southworth and the dimensions which are given in the lease were found to be very far from corresponding with the other lots in the vicinity. The lot which was released to the county by Turnbull was supposed to commence one hundred feet from the Puna side of the junction of Coconut Island Road and Front street extension and have a frontage of 45 feet. It was also supposed to have a depth of 125 feet.

The measurements taken by Mr. Southworth show that the fence which runs along the next adjoining lot on the Puna side is but one hundred and twenty-seven feet from the Puna boundary of the Coconut Island Road. In addition to this the mauka boundary of the Japanese chapel in the rear, is but eighty-two feet from Front street extension. Should the lot extend back for the full one hundred and twenty-five feet, the temple would have to be moved. In the meantime, it is understood the county has paid for the lease of the land that it did not get. This happened before the appointment of a county engineer.
